

Boundary-Line pricing

Please refer to the Business portfolio price list for full details of our pricing.

Ordnance Survey pricing is based upon corporate pricing. Corporate users are those customers using data on 101 or more terminals. Terminals include laptop, PC or other equipment containing a screen on which licensed data may be displayed or otherwise used.

Discount for non-corporate data use

Discounts on the corporate price are offered to smaller users. The table below shows the discount you are entitled to for each terminal band:

Terminal bands	Discount for non-corporate use (%)
101+	0
51–100	10
21–50	20
11–20	40
6–10	55
3–5	70
2	80
1	87.5
